EXPERIENCE

Silco Fire & Security, Blue Ash, OH — *Software Developer I*
September 2020 - xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx

- Developed a new customer facing billing portal with a React frontend, C# REST API, and integration with Stripe. Authentication used JWT standard. Functionality mimicked existing customer site, with additional features
- Automated an internal sales site, increasing sales and technician efficiency. Integrated SendGrid to automate emails. Enhanced JQuery to make the site more responsive, from a previously manual only process
- Maintained and upgraded internal sales and reporting sites with C# and MS SQL
- Responsible for CI/CD of code I owned, and deployed projects via Azure Pipelines and Octopus
- Communicated with project stakeholders at all levels of the company, prioritizing projects based on the needs of the company, using agile project management
- Assisted developing documentation standards. Wrote technical and user documentation

Shoptech Software Inc, Blue Ash, OH — *Software Developer I*
August 2018 - September 2020

- Created custom web applications using .NET MVC, C#, JQuery and Bootstrap. The applications used either MS SQL Server or MaraiDB based on the client's environment
- Converted legacy VB reports into C# .NET MVC
- Maintained and upgraded custom projects as needed
- Managed multiple projects with various deadlines and priorities
- Promoted from junior developer after first year

Shoptech Software Inc, Blue Ash, OH — *QA Specialist III*
December 2014 - August 2018

- Developed training and gave technical presentations
- Implemented new standards for testing software
- Tested functionality enhancements to the software
- Maintained software documentation after testing
- Promoted from QA Specialist I and QA Specialist II
